Sir,

This got stuck in my outbox. As I mentioned, most of the items mentioned in the Theis letter are not new and have been pretty thoroughly addressed by Michigan. For the four main buckets of allegations (Antrim County/Ballot handling/TCF center/observers), please see the State's statements/fact sheets linked below.

1. **Dominion systems / Antrim County** – all allegations addressed here:
https://www.michigan.gov/documents/sos/Antrim_Fact_Check_707197_7.pdf
2. **Ballot handling** – some, but not all of the allegation topics, are discussed here under various headers:

3. **TCF Center unsecured ballots** – one variant of this allegation is addressed here in the final bullet:

4. **Observers / transparency** – some, but not all, of the allegation topics are addressed here:

Received. We are aware of many of those claims and have discussed with Michigan over the last week, with Michigan addressing most of them.

Will circle back with a more fulsome response as this letter is dated today so dont know if we've had a specific discussion w/ MI on the request.

Has anyone from the State of Michigan reached out to CISA regarding the allegations in the attached? If so, please provide an update.

Thanks.
